

October 29, 2021

Dear Parent or Community Member:

Adair County Middle School is a co-applicant with Lindsey Wilson College which is pursuing a grant opportunity to establish 21st Century Community Learning Centers (21st CCLC) at ACMS.

The 21st CCLC grant program provides out-of-school academic, artistic, and cultural enrichment to students at risk of academic failure who attend high-poverty and low-performing schools. The purpose is to provide students with homework assistance and enrichment activities that complement the regular academic programs during the school day. Services include homework assistance, youth development activities, drug and violence prevention programs, character development, conflict resolution, counseling, and family skill-building activities.

To provide input about the design and development of these programs and discuss how to best meet our students' needs, please contact Alma Rich, Federal Programs Director at Adair County Board at 270-384-2476, ext. 2019 or email alma.rich@adair.kyschools.us by **Friday, November 5, 2021**.

Sincerely,
Alma Rich
Federal Programs Director
Adair County School District
